ABOUT US

Introduction

2026

Established as an independent, specialized company

Iraq-wide

Telecom projects delivered across the country

Subcontractor

Trusted partner to major operators & vendors

Integrated

Telecom, power, civil & smart solutions

JSR Company · Trusted. Integrated. Delivered.

Ali Abdulabbas
Chief Executive Officer

LEADERSHIP

Message from the CEO

JSR was founded by a team with deep field experience and a genuine passion for quality and reliable delivery. As we believe that success is built on trust, quality, and commitment.

Reliable Delivery

Engineering and technical solutions with efficiency and high performance

Seamless Partnerships

Effective collaboration throughout all parts of project execution

On-Time & Safe

Projects delivered safely, professionally, and on schedule

Our advantage stems from our specialized team and unwavering focus with our commitment to delivering projects safely, professionally, and on schedule, strengthening long-term trust with our clients and partners.

Mission & Vision

Mission

Empower individuals and organizations through the right technology, right vendor, at the right cost.

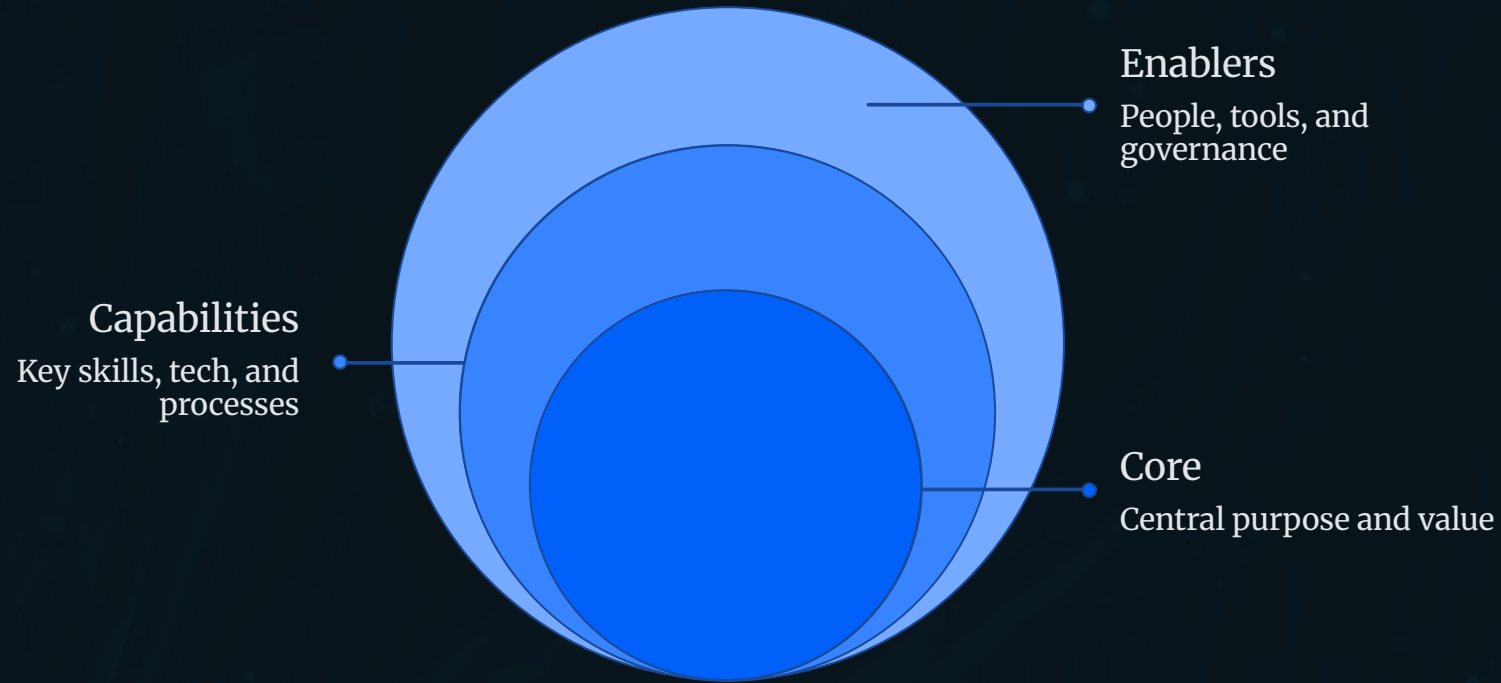

Vision

Foster a community where diversity is celebrated and communication technology evolves to meet every need.

JSR Company · Trusted. Integrated. Delivered.

Our Team Structure

A lean, efficient structure ensuring accountability from leadership to field execution.

Our Services

1

Telecom & Network Infrastructure

Mobile networks, microwave systems, telecom infrastructure

2

Power & Renewable Energy

Solar, wind, conventional power & data center systems

3

Integrated Security & Surveillance

CCTV, monitoring & smart security systems

4

Engineering & Oil Field Services

Civil works, oil & gas field support, infrastructure

5

Signal Control

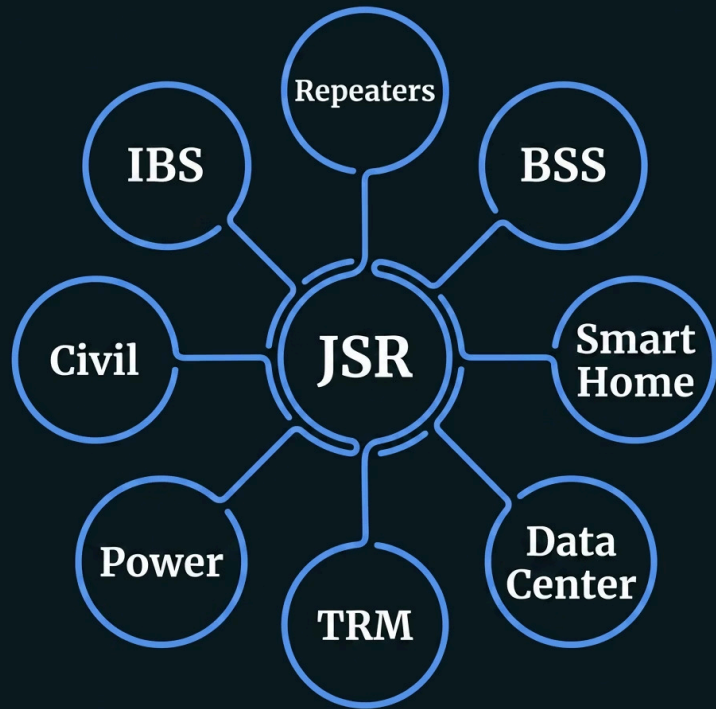

Traffic signal systems, urban traffic control (UTC) & smart signal management

6

Consultancy

Telecom, civil & mechanical works advisory

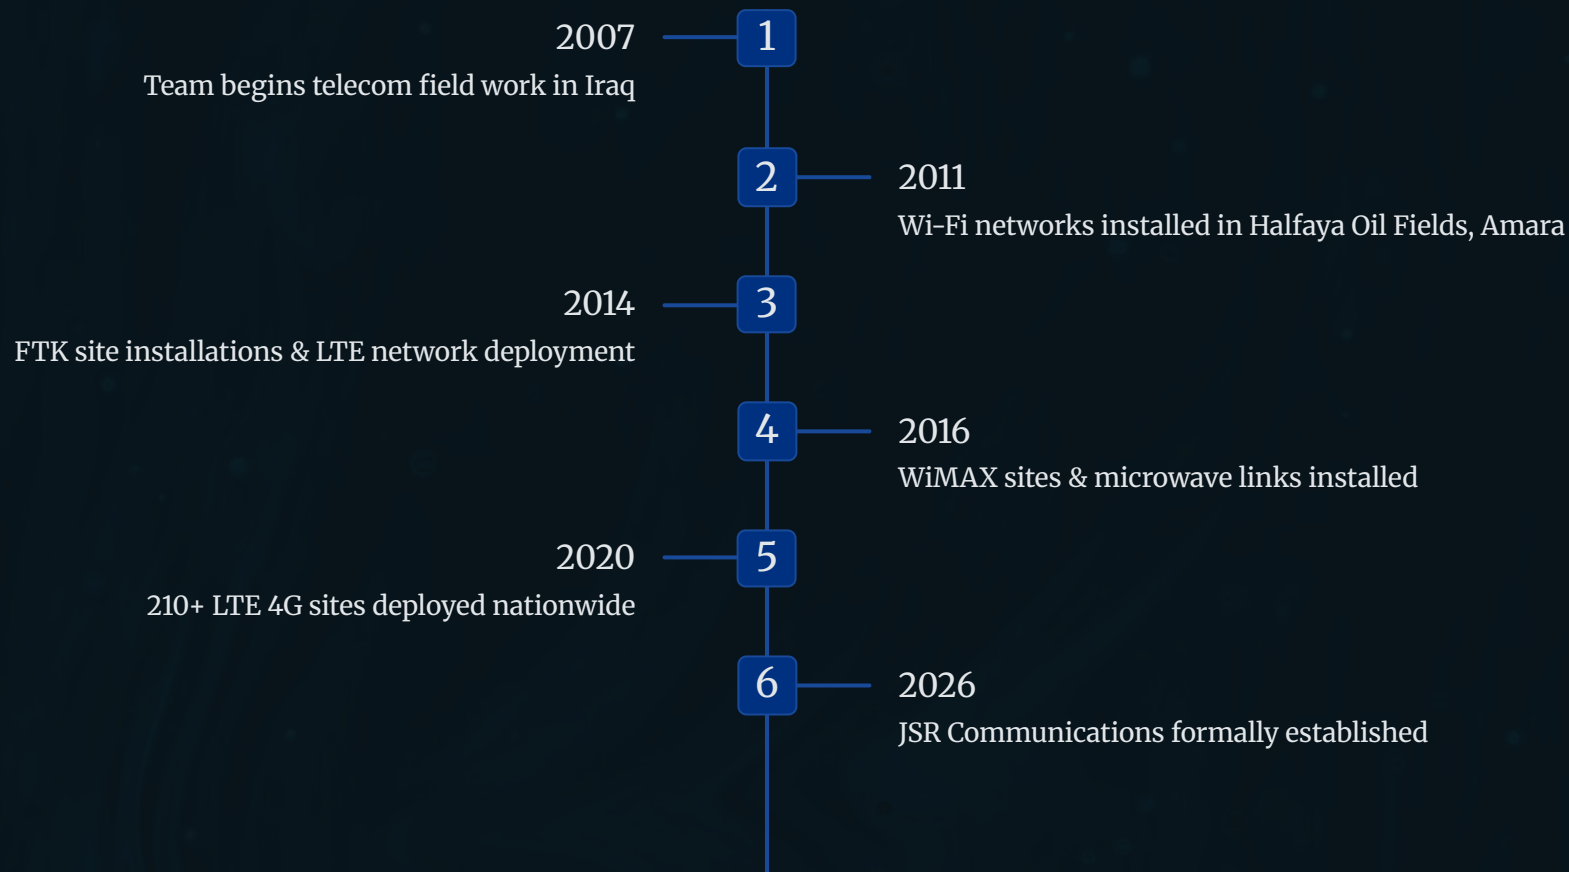

Our Service Domains

Core Divisions

- IBS & Repeaters
- BSS
- Smart Home
- Data Center
- TRM
- Power & Civil

Projects Delivered Before JSR's 2026 Registration

01 — TELECOM SECTOR

Telecom Sector

Mobile networks, microwave systems, IBS, BSS, and full telecom infrastructure across Iraq.

JSR Company · Trusted. Integrated. Delivered.

Telecom Mission & Vision

Mission

Ensure every client has the right technology, right vendor, at the right cost.

Vision

Lead Iraq's telecom evolution — from 2G foundations to next-generation networks.

JSR Company · Trusted. Integrated. Delivered.

Telecom Services

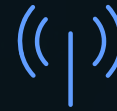

FTK Site Installation

2G, 3G & 4G sites — civil, electrical, power, grounding, cooling & full commissioning

IBS Solutions

High-quality indoor coverage for ministries, government buildings & commercial complexes

BSS Works

Antenna & feeder installation, RRU/BBU integration, VSWR/sweep testing & site acceptance

Telecom Services

COW Deployments

Mobile sites for high-density events — Karbala, Najaf visits, stadiums — fast & efficient

Microwave Transmission

Design, installation & operation of MW systems with field surveys & line-of-sight preparation

Switching Systems

2G, 3G & 4G switching installation, data/power connections & subscriber expansion works

Track Record: 2007–2019

Zain Iraq 2007–2010
FTK sites, DCS 1800 expansion, site survey & audit (Motorola)

Asiacell 2007
MW links installation & commissioning

CNPC 2011
Wi-Fi network in Halfaiya Oil Field, Amara (PetroChina)

Zain Iraq 2012
Motorola to Ericsson RAN Swap — Anbar

Zain Iraq 2014–2015
FTK sites, 3G, IBS, feederless RRU swap (Nokia)

Zain Iraq 2016–2019
3G, DCS expansion, U900, IBS, FTK sites (Nokia)

Track Record: 2020–2026

Zain Iraq 2020–2021

LTE 4G, DCS expansion, U900, IBS, small cell expansion (Nokia)

Zain Iraq 2022–2026

COW movement, IBS, site relocation, core scope, radio swap (Huawei)

Zain Iraq 2022–2026

Repeater, IBS & leaky feeder in-building solutions (COMBA)

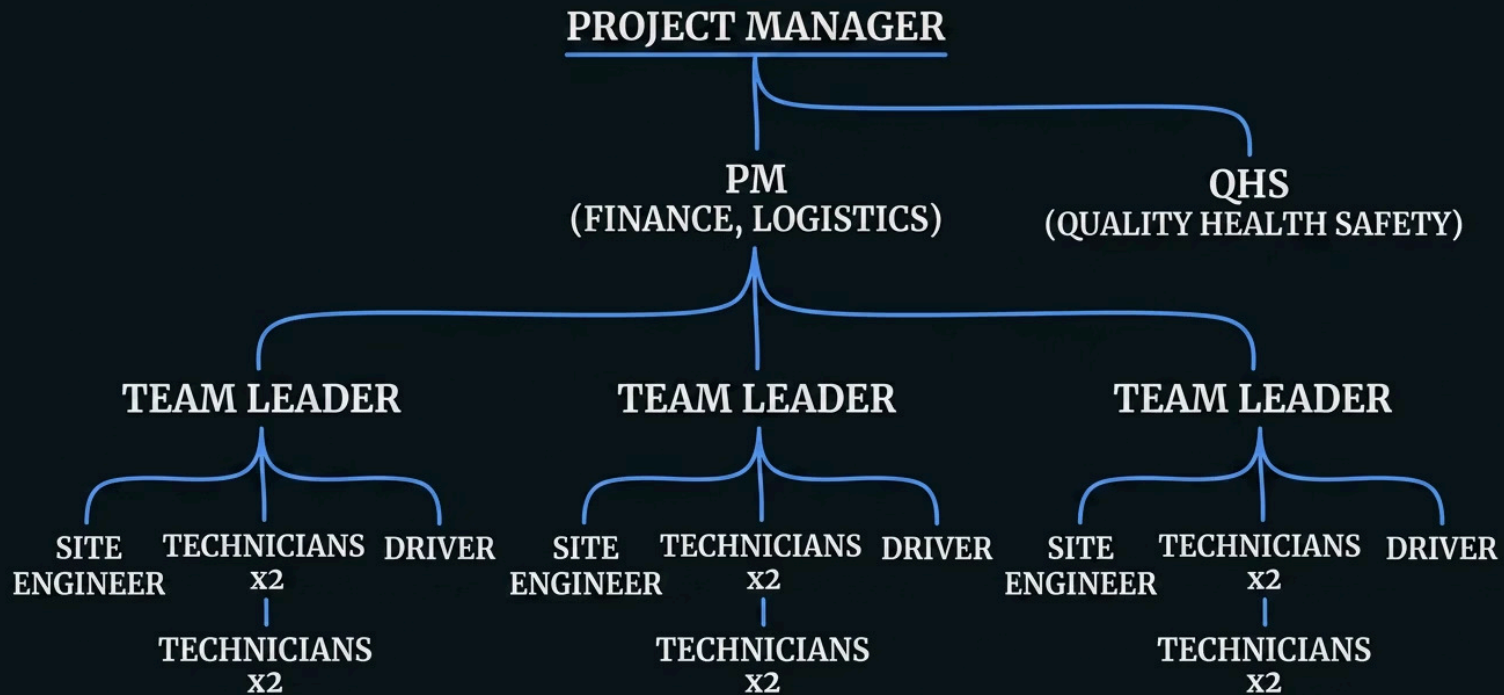

Zain Iraq 2021–2023

RAN RRU swap, LTE modernization, site integration (Ericsson/IPT & METCO)

Asiacell 2022–2026

MW projects — site survey, antenna & radio installation, line of sight (Nokia)

BSS & MW Team Structure

BSS Tools

Software Tools

- Node-B / eNodeB Commissioning
- Site Master Software (Anritsu)
- VSWR / Sweep Analysis
- Acceptance & Reporting (Excel)

Hardware Tools

- Site Master (Cable & Antenna Analyzer)
- Spectrum Analyzer
- RF Power Meter
- OTDR / Fiber Tester
- Torque Wrench Set & Multimeter

02 — POWER & RENEWABLE ENERGY

Power & Renewable Energy Sector

Conventional power, solar energy, wind systems & data center power solutions.

JSR Company · Trusted. Integrated. Delivered.

Power & Renewable Energy Mission & Vision

Mission

Provide clean, pollution-free energy through innovative solar and wind solutions.

Vision

Lead Iraq's renewable energy transition — right technology, right vendor, right cost.

JSR Company · Trusted. Integrated. Delivered.

Renewable Energy Systems

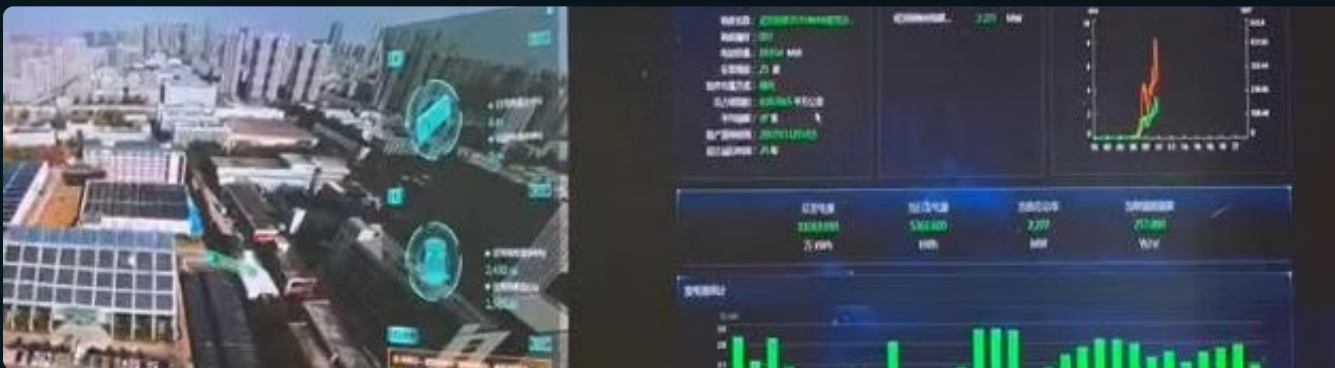

Operations

Manufacturing, installation & operation of solar and wind power stations — from planning to commissioning.

Project Model

Unique energy tower model proposed to Anbar University, Basra Governorate & Kirkuk.

Future Energy Goals

- Provide the world with clean, pollution-free energy
- Convert exhausted carbon from stations into useful energy
- Produce proprietary solar panels to international quality standards

03 — INTEGRATED SECURITY

Integrated Security Sector

CCTV, traffic AI, monitoring systems & smart security solutions across Iraq.

JSR Company · Trusted. Integrated. Delivered.

Security Mission & Vision

Mission

Reduce traffic accidents and enforce law through powerful, integrated control systems.

Vision

Deploy smart, AI-powered security and traffic systems for safer Iraqi cities.

JSR Company · Trusted. Integrated. Delivered.

Complete Solution Range

Traffic Signals &
UTC

Intelligent
Transport Systems

Security Systems

Communication
Systems

Traffic Monitoring
& Enforcement

Truck Weighing
(WIM)

Traffic Safety
Equipment

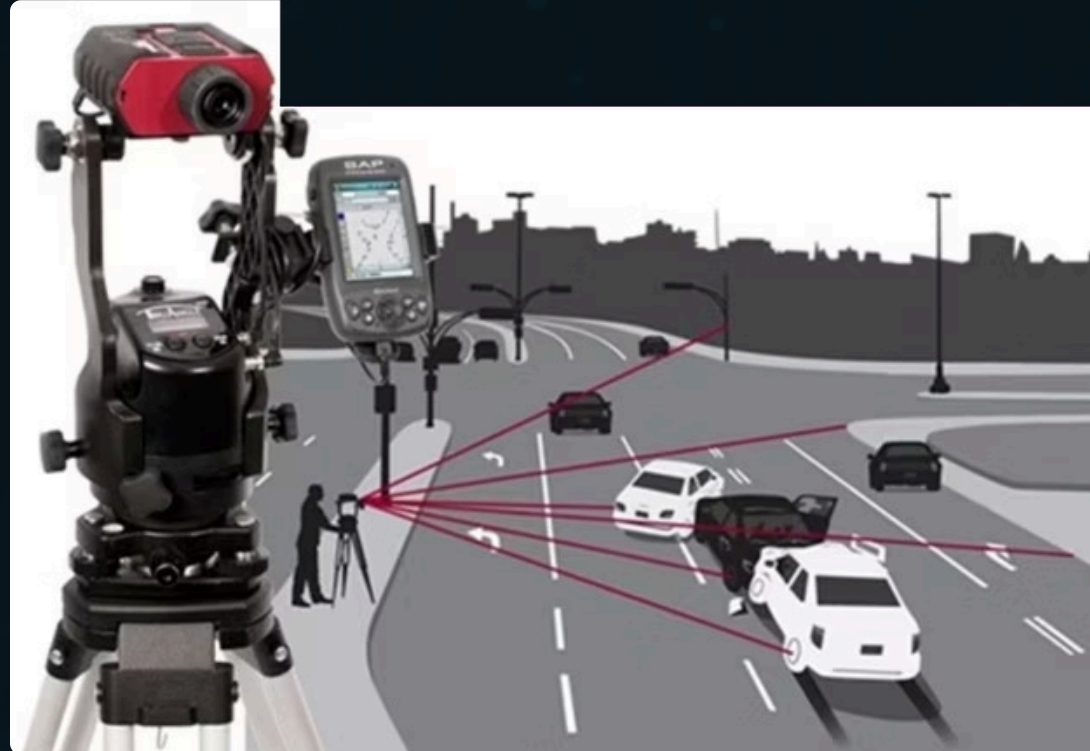

Electrical &
Mechanical
Services

Parking Management

Consultancy & Other Services

Consultancy Services

- Urban Traffic Control system design & improvement
- Traffic surveys & data collection
- Traffic studies & engineering design

Environmental Commitment

Manufacturing, installation & operation of security systems — cameras, radar, transmission lines & power stations.

- ❏ Unique AI traffic system model proposed to Basra Alfiyhah oil field

Camera Types

Fixed Traffic Cameras

Intersections & highways
— AI-integrated for
automated traffic analysis

Speed Cameras

Radar/LiDAR-based —
automatically captures
speeding vehicles

Red Light Cameras

Detects signal violations
— reduces intersection
accidents

Camera Types

ALPR Cameras

OCR-based plate reading
— identifies stolen,
unregistered & wanted
vehicles

Surveillance CCTV

Real-time footage for
traffic control centers —
congestion & incident
detection

Mobile Traffic Cameras

Mounted on police
vehicles or drones —
flexible, temporary
enforcement

Advanced Camera Technologies

Smart AI-Powered Cameras

Analyzes traffic patterns, detects illegal lane changes & pedestrian movements

Thermal & Night Vision

Detects vehicles & pedestrians in fog, rain or darkness — all-weather safety

JSR Company · Trusted. Integrated. Delivered.

Traffic Camera System Components

- CCTV & HD Cameras
Real-time high-definition monitoring
- AI & Machine Learning
Automated detection & violation tracking
- Radar & LiDAR Sensors
Speed & traffic density measurement
- Network Connectivity
5G, fiber optics & cloud integration
- Control Centers
Centralized monitoring & analysis

04 — ENGINEERING

Engineering: Civil, Mechanical & Oil Field

Engineering Mission & Vision

Mission

Deliver integrated engineering services — design, execution & supervision — with exceptional quality and speed.

Vision

Lead engineering solutions in Iraq & the region to the highest international standards of quality, safety & sustainability.

JSR Company · Trusted. Integrated. Delivered.

Engineering Services

1

Residential & Commercial Buildings
International quality & safety standards

2

Water & Sewage Networks
Treatment plants, road networks & sewage systems

3

Telecom Towers & Service Sites
High-efficiency telecom project design & implementation

4

Engineering Consultancy & General Contracting
Design, supervision, planning & full project delivery

Maintenance & Warranties

Preventive & Periodic Maintenance

Carefully designed programs ensuring continuous operation at maximum efficiency.

- Steel structures inspection
- Electrical systems
- Water & sewage networks

Extended Warranties

Real warranties covering quality, materials & workmanship — compliant with **ISO 9001** and **AISC** standards.

Technical Support & Training

Rapid Response

Integrated technical support
resolving post-delivery issues
without disruption

User Training

Training programs for client
teams on system operation &
maintenance

User Manuals

Comprehensive manuals
covering maintenance details
& professional procedures

04 — ENGINEERING · PROJECT EXAMPLE

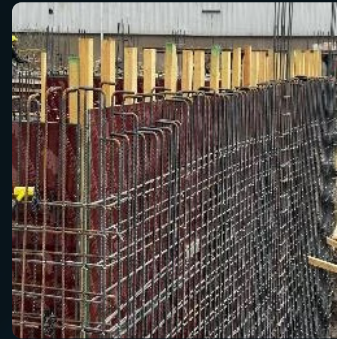

HQ & Data Center — Office Building

JSR Company · Trusted. Integrated. Delivered.

04 — ENGINEERING · PROJECT EXAMPLE

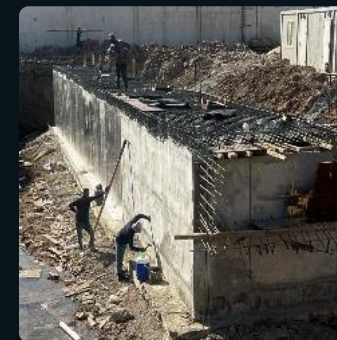

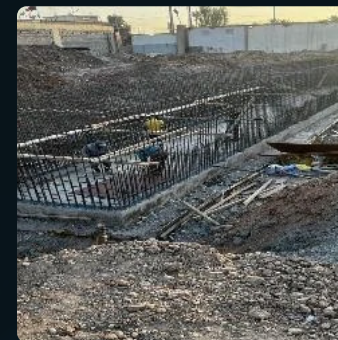

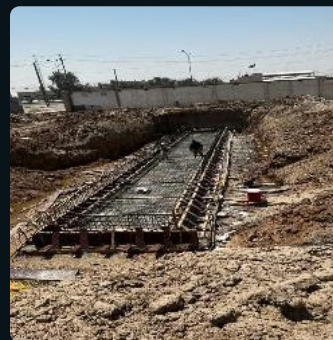

HQ & Data Center — Pump Room

JSR Company · Trusted. Integrated. Delivered.

04 — ENGINEERING · PROJECT EXAMPLE

HQ & Data Center — Storm Water Tank

JSR Company · Trusted. Integrated. Delivered.

HQ & Data Center — DG Area

Consultant Mission & Vision

Mission

Deliver value-driven insights, minimize risks, and empower clients in a competitive market.

Vision

Be the leading consultancy for telecom, civil & mechanical sectors across Iraq and the region.

JSR Company · Trusted. Integrated. Delivered.

Consultancy Expertise

Highly competent staff covering:

- Telecommunications sector
- Electrical engineering
- Civil engineering
- Mechanical engineering

Services include: products, services quality, reporting & evaluation.

Key Clients

- Zain, Nokia, Asiacell, Metco
- InfraForward, IPT, CMC Regulator
- Investment projects & oil field companies
- Ministry of Defense, Justice, Interior & Communication

Companies We Support

Zain
Operator

Ericsson
